EDUCATION

B.Tech in Computer Science

Vellore Institute of Technology, Vellore

Higher Secondary Certificate

Army Public School, Dhaula Kuan

Senior Secondary Certificate

Army Public School, Dhaula Kuan

September 2022 – Present

CGPA: 8.5/10

April 2020 – March 2022

Percentage: 92%

April 2018 – March 2020

Percentage: 91.6%

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL
- **Frameworks & Libraries:** PyTorch, TensorFlow, Keras, OpenCV, Mediapipe
- **Tools:** Nmap, Wireshark

PROFESSIONAL EXPERIENCE

Software Engineering Intern, *Comviva* - Gurugram

June 2024 – July 2024

- Executed 40+ test scenarios in demo predictive analytics modules and business logic components.
- Documented demo workflows and test findings to support knowledge transfer within the engineering team.

Data Analyst Intern, *NuvoRetail* - New Delhi

July 2023 – August 2023

- Built Python Selenium scraper to extract 5+ product features across 200+ items, enabling market analysis and supporting product evaluations.
- Supported product evaluation through analysis of 200+ customer reviews.
- Ensured 95%+ data accuracy by cleaning and validating 700+ records.

PROJECTS

1. Multimodal Deepfake Detection Framework

July 2025

- Engineered a lightweight deepfake detection framework.
- 98% AUC, 94.3% Accuracy on CelebDF Datasets.

2. SafeCommit - pre-commit secret scanner for Git

September 2025

- Implemented regex-based secret detection for common API key patterns
- Blocks unsafe commits, and errs on the side of safety

3. eCPI - Pocket Collective Pitch Indicator

May 2025

- Developed an Android app to replicate Collective Pitch Indicators (for Chetak and Cheetah helicopter models) aiding pilot simulation and training.
- Deployed on **Google Play Store**: [Download Here](#)

4. ASL to English Alphabet Translator

September 2023

- Designed a computer vision based ASL Sign detection system, recognizing 24 static ASL alphabets.
- Finalist at HackBattle'23 Hackathon for innovation in accessibility solutions.

POSITIONS OF RESPONSIBILITY

Events' Head, *IoThinC*, Vellore

January 2024 – January 2025

- Organized 10+ events end-to-end, overseeing planning, logistics, execution, and post-event documentation.
- Led cross-functional team of 20+ members, boosting social media engagement and profile views during graVITas'24.
- Conducted a hackathon and workshop with 140+ participants.

AI-ML Team Founding Member, *Team PROMETHEUS*, Vellore

July 2024 – March 2025

- Contributed to development and documentation projects for RoboCup International.
- Presented "AI in Astronomy" to 100+ attendees during Space Week 2024.

CERTIFICATIONS AND COURSES

Microsoft AI & ML Engineering Professional Certificate

September 2025

Google Cybersecurity Certificate

July 2024

Data Privacy

Penetration Testing and Vulnerability Analysis
